Sometimes it's too late.

### What we do:

During the court proceedings Hearts of Horse Haven will find resources to care for and maintain records on each animal to help with your court proceedings. They will be under veterinary care and our staff and investigators are able to testify in court as professionals to help make a stronger case. Hearts of Horse Haven goes over and above to offer our assistance to help the animals we have been called in to assist.

### Why we do what we do:

We understand resources are slim within a county to provide care for equine confiscated due to cruelty and neglect. Using our services free up funds for the county to follow through with prosecution to the fullest extent of the law.

### What we can help with:

- Hearts of Horse Haven has certified equine investigators on our staff and are here to assist and help you build a strong case when dealing with equine cruelty cases. Our expertise and experience help make that possible.
- We provide the experience needed to help work alongside equine owners by providing assistance and education on equine care. We are all about working with and not against owners who want to be responsible equine owners.
- We provide temporary housing for equine removed from owners due to animal abuse. We also offer temporary housing for equine found running at large. These services are offered to the county at no charge.

Being fed but no foot care in years. CRUELTY!
